

Please do not replace K-LOVE with LPFM access. K-LOVE has been a great asset in raising my kids. When the family is all together in the car, K-LOVE and their sister station Air-1 are the only two stations we all agree on. They promote local community non-profit organization events and offer free counseling services to those in need of help here locally and nationally. They promote positive family values and offer a positive listening alternative to most of the so-called local alternative stations. It also provides a unique opportunity for my family in Florida & Texas & California to all listen together. My nationwide family can share songs & memories that will last a lifetime. K-LOVE is a faith based organization which reflects all the positive attributes, public responsibility & involvement and respect of family, friends and neighbors through the love of Christ for the common good of all mankind. Please keep national programing available to K-LOVE. My nationwide family needs it. Thank you.
